

CHEMISTRY

Chemistry majors develop skills in critical thinking, laboratory techniques, and the clear expression of ideas. Chemistry is a great choice if you are planning a career in the chemical industry or if you intend to pursue graduate studies in business, education, or the health sciences.

BEYOND THE CLASSROOM

HANDS-ON EXPERIENCE

Under the guidance of faculty, Chemistry students participate in research. Many research students are co-authors on published chemistry research papers while others present their work at regional professional meetings. Cooperative education provides real-world experience in industrial settings or research labs in Greater Cincinnati, often leading to full-time positions for our students.

FURTHER YOUR EDUCATION

Students interested in preparing for a career in health care at the graduate level are encouraged to work with their academic advisor to identify a career path that aligns with their goals.

AFFORDABLE EDUCATION

\$5,000

SCHMIDLAPP SCHOLARSHIP

Open to women majoring in biology, chemistry, computer science, or math. Based on academic talent and location. The deadline to apply is January 31. Download an application at msj.edu/aid-forms.

CAREERS IN CHEMISTRY

DOCTOR

FORENSIC SCIENTIST

LAB TECHNICIAN

PHARMACIST

PHYSICIAN ASSISTANT

RESEARCH SCIENTIST

ALUMNI SUCCESS

90.5%

CAREER OUTCOMES RATE

90.5% of School of Arts & Sciences graduates were successfully employed, enrolled in graduate studies, or volunteering within six months of graduation. The knowledge rate for this survey was 82.2%.
